

Integrated Management System Policy

Leeds Bronze Engineering recognises that Quality, Environmental and Health and Safety issues are fundamental to the business. Our objective is to meet the requirements of all applicable legislation, regulations, accepted codes of practice and other requirements. Best practice is implemented through our certified Integrated Management System which satisfies the requirements of ISO9001, ISO14001 and OHSAS 18001. A periodic review is undertaken annually to ensure its continuing suitability, adequacy and effectiveness

Leeds Bronze Engineering is committed to continual improvement with a framework for setting measurable objectives and targets that are relevant to our operations for quality and all processes that affect the occupational health & safety and any impact on the environment.

Leeds Bronze Engineering objectives are to:

- ❖ To prevent injury, accident, ill health and any detrimental impact from its provision of services to the market and will not allow safety to be compromised by other considerations.
- ❖ Encourage all employees and contractors to take responsibility for working in a manner that promotes quality, whilst minimising impact to the environment and ensure the health and safety of employees, contractors, visitors and members of the public.
- ❖ Assess the level of risk from all significant health, safety and environmental hazards and, so far as reasonably practicable, ensure that they are eliminated or adequately controlled.
- ❖ Ensure that we protect the environment, including the prevention of pollution through the control of our significant aspects to eliminate risk as far as possible.
- ❖ Seek to minimise the environmental impact of its products at all stages of their life, whilst encouraging its customers to do likewise. Maintain a strategy for sustainable waste management and wherever possible recycle materials.
- ❖ Provide appropriate information, systems of communication, instruction, training, retraining and supervision to maintain and continuously improve the competence levels of all employees.
- ❖ Ensure that the product quality delivered to our customers consistently meets or exceeds their expectations and respond effectively to any concerns about the level of service provided.
- ❖ Regularly monitor, audit and review our own, contractors and supplier's performance to ensure continuous improvement

Your help and support is paramount in delivering this critical objective. You can play your part by:

- Striving to deliver a 'right first time' product and service.
- Taking care of your own health and safety.
- Taking care of your own environment.
- Ensuring that Leeds Bronze Engineering is a safe, environmentally friendly and great place to work

Duncan Gornall
Managing Director
